MONDAY, DECEMBER 6, 1875.

Town and Vicinity.

The Christmas visitor is coming.
The "NEW NATION," This Picture paper has changed hands. Mr. Bidwell, who has sold out to Mr. W. C. Scott.

Late.—The mail train from the west was four hours late to-day. The delay was caused by two freight trains running of the track, about half a mile east of Port Union.

Centennial.—The committee to arrange for the representation of Belleville at the Centennial will meet in the Town Hall at 7 o'clock this evening. A full attendance is desired.

What is the Christmas visitor?

Lecture.—Rev. Charles Chalmers will deliver lectures in the Town Hall to-morrow and Wednesday nights. It is probable, owing to the interest created by the Rev. gentleman's previous lectures, that a large audience will gather on each occasion.

Accident.—A young man who was engaged in removing the damaged locomotives from the site of the burnt shed, received a heavy blow on the head from a large iron wheel, fell from an engine which was about to be removed, causing a severe flesh wound.

Look out for the Christmas visitor.

Women's Christian Temperance Association.—A special meeting of the Women's Christian Temperance Association will be held on Tuesday afternoon, in the Town Hall building, at half-past 3 o'clock. Those willing to assist in work which requires to be done immediately, are earnestly invited to attend.

Is it a spirit or human form? The Christmas visitor.

Cherry.—Nearly the whole of the product of the cherry factories in this section has gone forward to market, only some three hundred boxes remaining to ship. The season has been the worst known in the business, buyers and factories which did not contract for the whole season's produce having lost the season's sale.

Coming! Coming! Coming! The Christmas visitor.

The Bay.—Skiing seemed to be the first sport yesterday, as hundreds of men and boys were carving over the surface of the Bay on skis. A large crowd, varying from about ten feet to two feet in width, is encountered near the point of the bar, about half way across, on the direct road to the Ferry Point. This crowd extends diagonally westward from about Bleeker's to a point a little east of Ferry Point, and can be "fanned" by travelling a quarter of a mile west of the present road. It was in crossing this creek that Mr. Davis broke through the ice on Saturday. The water about four feet deep at that point. The ice, though cracked a good deal by horses, is very strong, being in most places nearly six inches in thickness.

Further notice in due time of the grand reception to be given our distinguished Christmas visitor.

The Grand Trunk Fire.—The Grand Trunk Express, under the direction of Mr. Davis, Mechanical Superintendent, has been down, and all the damage, extensive as it was, has been repaired.

Scenes Death.—Suffered from Tuesday morning last, when John Davis, of Bloomfield, while on a visit to Mr. Jacob Rutan's, Pictou, suddenly expired. Mr. Rutan, for some time past, has been unable to give any reliable evidence of mental aberration, but no suspicions were entertained of serious consequences arising therefrom.

On the morning in question Mr. Davis acted somewhat strangely, and proceeded to one of the rooms. Mrs. Rutan, shortly afterwards followed her to ascertain the cause, and found her lying on the bed in

dying condition. Subsequently, a vital, containing a quantity of the oil of turpentine, was found under the pillow, which explained the cause of her death to the satisfaction of the friends. The remains were conveyed to Bloomfield yesterday for interment.

CHURCHY CHAMBERS.—Thompson & Co. have been ordered to remove. It was found, after for some time, that the firm was not in the city.

THE WEATHER.—Really fine winter weather is being enjoyed at present, though business men, who generally speaking, have a splendid run of custom on Saturday, wish for snow and consequent sleighing to keep them busy every day.

THE CELLS.—The number of quads who enjoyed the Town's hospitality on Saturday night was four, all of whom were voluntary inmates of the cells. Last night three persons put up at the free hotel, two of whom were prisoners, the other being a tenant at will of the Station.

A SHARP CHASE.—Constable Burtin had a sharp chase on Thursday last after the man who stole a coat and cap from Mr. Hunter, after passing the lower town, along the side of the canal, and was followed by the thief about five miles from Trenton, on the Stirling road, where he was arrested and confessed that the cap which he wore was stolen from Hunter. He will be brought before the court to-morrow.

SNOW DIRT.—Considering the small amount of snow which has fallen, it scarcely seems credible that a snow drift of three feet in depth of snows should obstruct a sidewalk in town, yet so it is. The sidewalk on Coleman Street, near the junction with Front Street West, is no exception at the present time, and seems likely to remain so. This is caused partly by drifts, and somewhat by the fact that the snow has been blown by the wind, and its formation kept the sidewalk clear. A close board fence would seem to have the desired effect, and the town authorities ought to induce the proprietors of the lot adjoining the street there to put up a fence, or a line of boards, or a great on Coleman Street, especially at that point.

THE DONTES BY-LAW.—Owing to the pressure of business at the Law Term, just closed in Toronto, the anti to enter the legality of the By-Law, passed by the people of the Town of Belleville, to grant aid to the North Bay Railway and Smelting Works in the Town of Belleville, was not reached. The question has therefore to remain in its present position for some time, unless something can be done to have the question settled. The By-Law is unfortunate, as it prevents the enterprise being presented this winter, thereby depriving a large number of people of employment; for we have the most positive assurance that this difficulty removed the work would be prosecuted with vigour during the present winter, while labor is plenty.

VOICES DESTROY A HOUSE.—On Saturday morning the 27th November, Mr. Geo. W. Bleeker, of Marmora, sent a favorite hound of his, which he has owned for eight years, to track some deer in the neighborhood. About noon the dog came back, having been dragging himself in the snow, having been bitten fearfully about the neck and back by wolves, and appeared to be in a completely exhausted condition. He was taken to the house, and every attempt was made to save him, but he died shortly after. On examination it was found that the hound must have had a fearful encounter with wolves about a mile and a half from the village. The tracks of three wolves were plainly discernible in the snow, and evidence of the bloody struggle between them and the hound, were visible for some distance along the road and through the fields.

A LOVE STORY.
BY EDWARD ECCLESTON
AUTHOR OF "THE HOORNER," "HOOLOWAY,"
CHAPTER XXXVII.
THE DELUGE.
THE indescribable horror that
all, the worst of anything that
is the moment before it begins. A

[illegible]

Mrs. Anderson felt that the mastery of invective which she was about to undertake, was not to be taken in hand, unadvisedly, "but reverently, discreetly, and the fear of God." And so she paused. Julia fumbled the tassel of the window curtain, and trembled with a cold of expectation. And Mrs. Abigail continued to debate how she might make this would doubtless be her last outburst before the day of judgment, her masterpiece—worthily song of the dying. And then she hoped—she sincerely hoped—to be able by this awful *coup de main* to awaken Julia to a sense of her sinfulness.

For there was such a jumble of motives in her mind, that one could hardly distinguish her sincerity from her hypocrisy.

Mr. Anderson's conscience was objective one. As Jonas often remarked, "she had a feelin' sense of other folks' feelin's." And the sin which called for her mercilessness was the sin which she herself had committed. Her sin was not so much Julia's disobedience to her, as it was darker in her mind than murder, concern for anybody else would have been limited to the verbal punishment of the child. But she had no concern on her ability to do the matter justly. Even as a tyrannical backwoods schoolmaster straightens his long beech-rod lustily before applying it.

Not that Mrs. Anderson was silly. She was a woman of sense and good sense in a pragmatic direction. She was as strong from above to do her whole duty as she would have told you. She was

izing in prayer for her daughter, and contrived that her stage character, who would not do otherwise, should be deceived, object. Humphreys remained, pretending to read the book, "Josephus," But watching the opportunity with the interest of a connoisseur, he saw the opportunity to remain, to keep Julia in company, and he beckoned to Cynthia to stay. And Samuel, a young man, a friend of the daughter, who feared his wife, fled like a coward from the coming of the daughter's expected Mrs. Anderson break out like a fury.

But she knew a better plan than this. She felt a new device come like an inspiration. She felt that she "was directed" And perhaps she was. It really seemed to Jones that the devil helped her. Instead of breaking out in a vulgar scolding, the necessity of which she was sure, she trusted, she dropped

No sweaver ever curses like the man who veils his personal spite in official denunciations, and Mrs. Anderson had never dealt out abuse so roundly and terribly and crushingly, as she did in the guise of praying for the salvation of Julia's soul from well-deserved perdition. She left that to wicked spirits. She thought it a virtue to speak "hell" with unctuous emphasis, by way of alarming the consciences of sinners. Mrs. Anderson's prayer is not reportable. That sort of prayer is too bad to write. She said her climax—even as I have heard a list pray for a scowder that had been a righteous soul—by asking God to condemn her daughter, or if she could not be converted to take her away that she might heap up wrath against the day of wrath.

that sort of religious excitement was not quiet the evil passions, so that the influence of the Holy Spirit was in any right sense slain. And the prayer was addressed more to the frightened than to God. She would not have been able to have been so much broken by the Holy Spirit's blessing: been greater than she was.

Jahia would have run away from admonition which followed the prayer, but it was not Mrs. Anderson alone, but it was the Holy Spirit who brought Jahia to repent, and then, affecting to show her her sinfulness, she proceeded to abuse her.

"I am Jahia no tempter, yes, she said, but I am not my mother's or without her meanness. She would not resist, but that from childhood she was paralyzed by her mother's sin."

"The heavens of the village," said the foot of Vesuvius never deeming stopping the creature's nose."

"But, happily," said Mrs. Anderson, "I am not a little too far."

"You poor lost sinner," she said, "think you should go to destruction."

Julia would not have understood the meaning of this aspersion of her purity had she not caught Humphreys's eye. His expression, half sneer, half leer, seemed to give her mother's saying its full intimation. She put out her hand, she turned white, and said: "Say one word more and I will go away from you and never come back! Never!" And then she turned down and cried, and then Mrs. Anderson

Town and Vicinity.

TOWN COUNCIL.—A regular meeting of the Town Council will be held on Monday evening.

QUARTER SESSIONS.—The next sitting of this Court will be held during the coming week, commencing on Tuesday next.

BOARD OF EDUCATION.—The Board of Education will hold its regular monthly meeting for December, on Tuesday evening next, being the second Tuesday in the month.

TEA MEETING.—We would again remind our readers of the tea meeting which is to take place in the Baptist Church on Tuesday evening next. Speeches and music will follow the substantial.

CONFIRMATION.—The Episcopal Bishop of Ontario, assisted by the Ven. Archdeacon Parnell, held a confirmation at Christ Church, Indian Reserve, on Sunday last, when 84 candidates for the rite were confirmed.

ST. GEORGE'S CHURCH.—The friends of the Rev. A. Dawson, will be glad to learn that the Rev. gentleman will officiate next Sabbath in St. George's church, St. Catharines, at morning and evening services—11 o'clock a.m. and 7 o'clock p.m.

TOWNSHIP ELECTIONS.—Several ladies are circulating a petition, which is being largely signed by the "waker sex," asking the Council to restrict the number of tavern licenses and other licenses for the sale of spirituous liquors during the coming year.

TOWNSHIP ELECTIONS.—The townships, as January draws near, are picking out the best men for municipal honors. The matters are as yet very quiet in this County. Of course, not a few gentlemen are picking themselves out as the "probables." Time will show.

TERRELL'S SUFFERINGS.—On our fourth page will be found a thrilling narrative of the sufferings of the crew of the *barge Terrell*, lately captured by the pirates of Michigan. The story will be read with peculiar interest from the fact that one of the sufferers was Joseph Howell, a native of this town.

ELECTIONS.—The voting which is to decide whether Sir John Macdonald or H. A. Mackenzie is to be the future owner of a handsome reception chair is to take place at the bazaar to be held by the ladies of the M. E. Church, commencing on Wednesday evening next. A lively and exciting contest may be anticipated, and the good ladies will doubtless find their funds much appreciated thereby.

CHRISTMAS FAIR.—The annual Christmas Cattle Fair, for the exhibition and sale of fat stock, will be held on the market on Monday, 20th inst., under the superintendence of Messrs T. C. Wallbridge, A. Ellis and Geo. Mitchell. In order to attract a large show of stock, liberal prizes are offered, second money being given in each case. Buyers are likely to be numerous and competition spirited, therefore we anticipate a large show.

BALLOT BOXES.—An order in Council has been approved by His Honor the Lieutenant-Governor, authorizing the Clerk of the various Municipalities having in their custody ballot-boxes belonging to the Government of Ontario, to permit such ballot-boxes to be used for Municipal elections held for the Municipality, where such use does not interfere with the use of the ballot-boxes for Provincial or Dominion Elections.

SKATING.—The idea seems to be prevalent that skating is about to resume its former deserved popularity as our most pleasing winter amusement. In addition to the two rinks advertised as about to be opened, we hear of three more as being likely to be commenced shortly. Thus, if these good intentions be carried out, there will be five skating rinks in town. Brockville has three rinks, but Belleville can easily support five, if the skaters catch the "skating fever" as badly as they had it two or three years ago.

NEW SCHOOL AT MILL POINT.—The Board's correspondent writes:—On Monday last, the new Academy in this place was ready for the transaction of business. It was the indefatigable teachers Mr. Vandover and Miss Clarke and about 150 pupils. The new school building is pleasantly situated on Bay View Hill, and is a very handsome structure. It is built of red brick, the walls of which are sixteen feet high, and it is divided into three large rooms of 25 x 40 feet each with folding doors, so that they can all be thrown into one room when required. The whole building is heated with hot air, and well ventilated and cost \$4,000. It was erected by Messrs. Rathbun & Son, and Mr. Barber, of Toronto, was the architect. The seats were made by Messrs. Gilbert & Son, of Niagara. There is no doubt

that this will soon be one of our High Schools, as there is no room in East Endings. Another teacher will be required, so there will be an influx of scholars.

M. E. CHURCH.—Rev. J. B. Jacques, D. D., will preach in the M. E. Church to-morrow at 11 o'clock a.m. Subject: "The call to the Christian Ministry." Rev. E. N. Baker will preach at 6:30 p.m.

PRINCE EDWARD ELECTIONS.—The Court of Common Pleas in the last of the Order applied to the Judges to fix a day for the trial of the Prince Edward Election case. Mr. Bethune came. The trial was fixed for the second day of Hilary Term, 8th February.

THE MARKET.—There was an immense attendance on the market this morning, and prices generally were without change. Hides have again advanced to \$5.50. Tallow sold at 70 to 75 cents per barrel; and wool, owing to the large arrivals consequent on the sleighing, declined to \$2.50 to \$4 per cwt.

BOATMEN.—There was a brisk business done in town to-day, the stores being well filled with customers during the greater part of the day. Money is gradually getting into circulation again, and the "hard times" are gradually relaxing, the grip which they have had on the country for some months past.

PUBLIC MEETING.—In compliance with the request of a requisition, signed by several clergymen and a large number of ratepayers, the Mayor has called a public meeting, to be held in the Town Hall on Tuesday evening next, 14th inst., at which steps can be taken to relieve the sufferings of the poor of the town during the coming winter. The object of the meeting must meet the approval of all good citizens, and we hope to see a large attendance at the Town Hall on Tuesday evening.

CLEARING THE SIDEWALKS.—We have been requested to draw attention to the very unsatisfactory manner in which the provisions of the By-law concerning the clearing of snow from the sidewalks are carried out. Like many another of our municipal laws, only those who choose obey its requirements. The Police Commissioners ought to instruct the men under their jurisdiction to proceed at once to enforce the law, as the constables do not seem inclined to do so of their own motion.

ELECTION OF OFFICERS.—On Tuesday evening, 7th inst., the annual meeting of "Bowell's Lodge, No. 6, O. V. B. R., Belleville, was held, when the following officers were elected for the ensuing year:—Chas. Gillett, W. M.; Wm. A. D. M.; Geo. Connelley, Chap.; H. H. H. Sec.; W. McGinnis, Treas.; Jas. McGinnis, D. of C.; J. Brown, H. Hart, J. Frazer, A. Pitts. After the election the members adjourned to Hamby's, where they enjoyed an excellent supper, and a very pleasant evening was passed, the usual local and patriotic toasts being drunk, speeches made in response, songs, &c.

THE BAKERS.—The Bakers' Guild of St. Paul and Paddy Doyle of J. M. White, has been removed to the premises of St. Kennedy, and will be open for sale on Saturday, 11th inst., and continue until sold out, at 100.

BATES.—The New York Tribune says:—"That international nuisance, Sergeant Bates, has been planning, it seems, to invade and harass Canada. His purpose is a Canadian reception chair. He has taken the case to the bazaar to be held by the ladies of the M. E. Church, commencing on Wednesday evening next. A lively and exciting contest may be anticipated, and the good ladies will doubtless find their funds much appreciated thereby."

SKATING.—The idea seems to be prevalent that skating is about to resume its former deserved popularity as our most pleasing winter amusement. In addition to the two rinks advertised as about to be opened, we hear of three more as being likely to be commenced shortly. Thus, if these good intentions be carried out, there will be five skating rinks in town. Brockville has three rinks, but Belleville can easily support five, if the skaters catch the "skating fever" as badly as they had it two or three years ago.

NEW SCHOOL AT MILL POINT.—The Board's correspondent writes:—On Monday last, the new Academy in this place was ready for the transaction of business. It was the indefatigable teachers Mr. Vandover and Miss Clarke and about 150 pupils. The new school building is pleasantly situated on Bay View Hill, and is a very handsome structure. It is built of red brick, the walls of which are sixteen feet high, and it is divided into three large rooms of 25 x 40 feet each with folding doors, so that they can all be thrown into one room when required. The whole building is heated with hot air, and well ventilated and cost \$4,000. It was erected by Messrs. Rathbun & Son, and Mr. Barber, of Toronto, was the architect. The seats were made by Messrs. Gilbert & Son, of Niagara. There is no doubt

that this will soon be one of our High Schools, as there is no room in East Endings. Another teacher will be required, so there will be an influx of scholars.

M. E. CHURCH.—Rev. J. B. Jacques, D. D., will preach in the M. E. Church to-morrow at 11 o'clock a.m. Subject: "The call to the Christian Ministry." Rev. E. N. Baker will preach at 6:30 p.m.

PRINCE EDWARD ELECTIONS.—The Court of Common Pleas in the last of the Order applied to the Judges to fix a day for the trial of the Prince Edward Election case. Mr. Bethune came. The trial was fixed for the second day of Hilary Term, 8th February.

THE MARKET.—There was an immense attendance on the market this morning, and prices generally were without change. Hides have again advanced to \$5.50. Tallow sold at 70 to 75 cents per barrel; and wool, owing to the large arrivals consequent on the sleighing, declined to \$2.50 to \$4 per cwt.

BOATMEN.—There was a brisk business done in town to-day, the stores being well filled with customers during the greater part of the day. Money is gradually getting into circulation again, and the "hard times" are gradually relaxing, the grip which they have had on the country for some months past.

PUBLIC MEETING.—In compliance with the request of a requisition, signed by several clergymen and a large number of ratepayers, the Mayor has called a public meeting, to be held in the Town Hall on Tuesday evening next, 14th inst., at which steps can be taken to relieve the sufferings of the poor of the town during the coming winter. The object of the meeting must meet the approval of all good citizens, and we hope to see a large attendance at the Town Hall on Tuesday evening.

CLEARING THE SIDEWALKS.—We have been requested to draw attention to the very unsatisfactory manner in which the provisions of the By-law concerning the clearing of snow from the sidewalks are carried out. Like many another of our municipal laws, only those who choose obey its requirements. The Police Commissioners ought to instruct the men under their jurisdiction to proceed at once to enforce the law, as the constables do not seem inclined to do so of their own motion.

ELECTION OF OFFICERS.—On Tuesday evening, 7th inst., the annual meeting of "Bowell's Lodge, No. 6, O. V. B. R., Belleville, was held, when the following officers were elected for the ensuing year:—Chas. Gillett, W. M.; Wm. A. D. M.; Geo. Connelley, Chap.; H. H. H. Sec.; W. McGinnis, Treas.; Jas. McGinnis, D. of C.; J. Brown, H. Hart, J. Frazer, A. Pitts. After the election the members adjourned to Hamby's, where they enjoyed an excellent supper, and a very pleasant evening was passed, the usual local and patriotic toasts being drunk, speeches made in response, songs, &c.

THE BAKERS.—The Bakers' Guild of St. Paul and Paddy Doyle of J. M. White, has been removed to the premises of St. Kennedy, and will be open for sale on Saturday, 11th inst., and continue until sold out, at 100.

BATES.—The New York Tribune says:—"That international nuisance, Sergeant Bates, has been planning, it seems, to invade and harass Canada. His purpose is a Canadian reception chair. He has taken the case to the bazaar to be held by the ladies of the M. E. Church, commencing on Wednesday evening next. A lively and exciting contest may be anticipated, and the good ladies will doubtless find their funds much appreciated thereby."

THE BAKERS.—The Bakers' Guild of St. Paul and Paddy Doyle of J. M. White, has been removed to the premises of St. Kennedy, and will be open for sale on Saturday, 11th inst., and continue until sold out, at 100.

ST. GEORGE'S CHURCH.—The friends of the Rev. A. Dawson, will be glad to learn that the Rev. gentleman will officiate next Sabbath in St. George's church, St. Catharines, at morning and evening services—11 o'clock a.m. and 7 o'clock p.m.

TOWNSHIP ELECTIONS.—Several ladies are circulating a petition, which is being largely signed by the "waker sex," asking the Council to restrict the number of tavern licenses and other licenses for the sale of spirituous liquors during the coming year.

TOWNSHIP ELECTIONS.—The townships, as January draws near, are picking out the best men for municipal honors. The matters are as yet very quiet in this County. Of course, not a few gentlemen are picking themselves out as the "probables." Time will show.

TERRELL'S SUFFERINGS.—On our fourth page will be found a thrilling narrative of the sufferings of the crew of the *barge Terrell*, lately captured by the pirates of Michigan. The story will be read with peculiar interest from the fact that one of the sufferers was Joseph Howell, a native of this town.

ELECTIONS.—The voting which is to decide whether Sir John Macdonald or H. A. Mackenzie is to be the future owner of a handsome reception chair is to take place at the bazaar to be held by the ladies of the M. E. Church, commencing on Wednesday evening next. A lively and exciting contest may be anticipated, and the good ladies will doubtless find their funds much appreciated thereby.

CHRISTMAS FAIR.—The annual Christmas Cattle Fair, for the exhibition and sale of fat stock, will be held on the market on Monday, 20th inst., under the superintendence of Messrs T. C. Wallbridge, A. Ellis and Geo. Mitchell. In order to attract a large show of stock, liberal prizes are offered, second money being given in each case. Buyers are likely to be numerous and competition spirited, therefore we anticipate a large show.

BALLOT BOXES.—An order in Council has been approved by His Honor the Lieutenant-Governor, authorizing the Clerk of the various Municipalities having in their custody ballot-boxes belonging to the Government of Ontario, to permit such ballot-boxes to be used for Municipal elections held for the Municipality, where such use does not interfere with the use of the ballot-boxes for Provincial or Dominion Elections.

WEDNESDAY, DECEMBER 15, 1875.
Terrible Sufferings.

The sufferings of the insurgents in the Herizogues are described as appalling. Letters from Ragusa speak of the horrible holocaust of women floating in the river Save, and wine feeding on corpses in the streets of one of the towns. The refugees are in a state of terrible distress. There are at present in the District of Ragusa alone, about twelve thousand refugees, nearly all women, children, or old men. In Montenegro there are 50,000. In Croatia and Serbia thousands again—the whole number of fugitives amounting to nearly one hundred and fifty thousand. There is little prospect of their returning home all winter long. All the money thus far received goes for bread and blankets of a coarse kind for covering, which serves for garment, bed, and bed covering—all that they will have to protect them from the cold, dry and night. Their heavy light the greater number of the refugees have brought nothing but the summer clothing which happened to be on their bodies. The subscriptions received from various quarters are inadequate to relieve a tenth of the destitution which meets the eye at every turn. "Every blast of this November wind," says the writer, "makes me shudder for the poor creatures whom I saw this afternoon—men, women, and children, and heads, and bodies at near nakedness as can be allowed in the streets. Very many of the homeless, half-naked, shivering, kind of loose-limbed, short night-gown, made of something which resembles the coarsest fish-bone, and this garment, though tied together, and principally composed of patches, still one mass of rags, which seemed to make their nakedness more pitiful."

ONTARIO LEGISLATURE.—It is said the Ontario Legislature will rise for the holidays on Wednesday, Dec. 22nd, and reassemble on Thursday, Jan. 6th.

QUEBEC RAILWAY POLICY.—The resolutions of the Quebec Government on the Northern Railway were carried this morning on Wednesday, Dec. 15th, by a vote of thirty to twenty against them.

THE LUMBER BUSINESS.—Lumbermen in Ottawa are sending up letters of complaint for the water at 75 cents to \$1 per day. Choppers are crowding to the office for work, and are taking whatever is offered. Wages are not within 50 per cent of what they were last year.

PALE ECONOMY.—A coroner's jury enquiring into the death of two men killed by the cars at Buffalo the other day returned a verdict that they lost their lives through "the contemptible false economy of the New York Central Railroad in not having sufficient employees."

THE ABSENT MIND.—The Quebec Court of Appeals on the 14th inst. decided in the Argentine contested election case that Mr. Ouching had no right to appeal and dismissed his motion, with costs. The question of the unconstitutionality of the Act was not touched on. Mr. Ouching talks of carrying his case to the Supreme Court.

THE TUCKER INVENTION.—The American Ambassador asked the Great Visir on Saturday to suspend hostilities and open negotiations in the insurgent district. Some of the Ministers are urging the Sultan to reject the programmes of reform emanating from the Northern Powers, and in justification of such rejection, to urge the Sultan to reject the plan of reform which the Porte itself intends to promulgate to-morrow.

TYPHOID FEVER.—The Principal of Upper Canada College has issued a circular in which he says that owing to the prevalence of typhoid fever in the city, and its having manifested itself in the boarding-house of the College, following medical advice it has been thought advisable that the Christmas holidays should commence at once. Pupils left for their homes on the 14th inst. and are to reassemble at the college on January 4th. During the vacation several sanitary improvements are to be made. There were seven cases at the College.

THE OIA INDIANS.—An Ottawa dispatch says: "Rev. Mr. Palmer, a Presbyterian minister, has been sent to the Nipissing District, so that they could move away from their present persecutors. Mr. Laird complied with their request, and a delegation was sent to meet them. They selected a tract of land, and then applied for it, but it is reported that R. W. Scott, who was acting in the absence of Mr. Laird as Minister of the Interior, has refused the grant. This is the story that is going the rounds at present."

REPORTER.—The Hamilton Spectator says: A telegram of this city last night after reading the notice from the public concerning his own congregation, and that he had a number of other notices given him to read, but that as he was not an advertising medium, he would not read them. The newspaper, he said, were open to the public who desired to make the information public, and he would recommend them to use that means of advertising. A most level-headed and sensible clergyman, it is to be hoped that every clergyman in the country will follow this example and put an end to the unseemly practice of public advertising.

RELIEF OF THE POOR.

PUBLIC MEETING ON THE SUBJECT.

A public meeting on the above subject was held in the Town Hall last night, there being a large attendance. The Mayor, in taking the chair, said he did not intend to make any suggestion, leaving the gentlemen who were present to make suggestions. However, the basement of the market building was unoccupied, and could be occupied as a soup kitchen. He concluded by reading a letter from Messrs. Rathbone & Son, offering fifty cords of wood for the poor, which announcement was received with applause.

Rev. John Barton, who was the first speaker, said he considered the present an exceptional time, owing to the commercial depression. He urged a generous course upon his hearers, suggesting that the more able, in a pecuniary sense, might employ men who were willing to do so, to clear the sidewalks in front of their stores at noon. This would require only a portion of the cases, which he proposed to deal with through a Committee of officers, who could carry on the work without expense.

Mr. N. B. Falkner suggested the formation of a large central Committee of ladies and gentlemen taken from the various Churches, and the Presidents of National Societies, the Mayor to be Chairman. This Committee to be assisted by sub-committees in the various wards. The Central Committee to be composed of three clothing and food committees, each to be composed of three persons, to form one of a Committee of three to canvass the town for clothing for the male poor.

Mr. W. W. McLean, after expressing his approval of the idea of systematic charity, moved for the appointment of a Central Committee as suggested by Mr. Falkner. Rev. A. Campbell seconded the motion. Mr. Hope said he had given a good deal of attention to the condition of the Town of York, and he gave it at his office, that the technical "poor" were not for several years in a better position than they are now. It was his belief that the technical "poor" were suffering in the Town of York. He suggested that a Committee of three be selected from each Ward in the town, one of whom should be in each case a Councillor, to receive applications from such as required aid, and to report to the Central Committee on Poor and Sanitary, and that they relieve these parties; it being his opinion that it was fairer to relieve their want out of the Town funds, than out of private means.

Mr. Morgan Jelliff did not agree with Mr. Hope's suggestion, it being his opinion that the Councillors had as much to look after as they could attend to.

After a few further remarks from Mr. Messrs. McLean, Barton, and Dr. Hope, Judge Sherwood expressed his approval of the plan proposed by Mr. McLean's resolution, the meeting being too large to descend to particulars. Suggestions were made that the Town's funds should be applied to the relief of the poor, and that collections should be dispensed. It might be well to adopt both suggestions, as both were good. Seeing he better means than a Central Committee, he treated that one to be appointed. He had no doubt there were more people needing relief this year, at least in this town, than for years past.

Rev. Mr. Burke repeated the same suggestion as that made by Mr. Barton, namely the providing of work. He also urged that the Town should discontinue the relief from relief, but that families should be provided for.

Mr. Thos. Ritchie considered that they should be careful in forming any committee. He suggested that a Central Committee be appointed to apply the charity of the Town. He suggested the appointment of a Committee of three to receive and distribute, and Committees of three of each congregation to inquire into individual cases.

Rev. Mr. Burke said the congregations were willing to take care of the poor whom they had last winter, but there were many more needing charity this year.

Dr. Burton suggested that only a general meeting of both members for each Ward be appointed.

The resolution was then put and carried, and a Committee was appointed to name a Central Committee.

Mr. McAnany suggested two ways of raising money, namely by entertainments and by subscription. In the former course, he decided upon, Dr. Palmer authorized him to say that the officers and pupils of the Institution for the Deaf and Dumb would give an entertainment such as they gave last year. The one given last year produced \$284, which was a sum that did a great deal of good. His idea was that one hundred persons could be found to contribute \$10 each or \$20 at \$5 each, which would amount to \$1,000, which they could endeavor to raise.

Mr. M. Jelliff suggested that the Ward Committees solicit clothing, and food, and that the system of a proposed General Committee with the Poor and Sanitary Committee.

Mr. Falkner considered that the Ward Committee would be in a better position to derive the mode of raising money than a large meeting. Until a canvass had been made, he did not know what was needed, therefore it would be premature to take action at this meeting.

Rev. Mr. Burke considered that male visitation would be best, the ladies being too tender-hearted and too easily impressed, and that it would be desirable to have the ladies associated with the work.

Dr. Potts suggested the adoption of the envelope system, sending envelopes to each house in town, with a request for subscriptions. This system had proved very successful in other places.

The Committee appointed to name the General Committee here entered the hall and submitted the names of a proposed General Committee, Mr. S. W. McAnany, A. McKay, P. E. Lynch, Dr. Stewart, W. K. Gorton, Milton Griffin, N. B. Falkner, M. Jelliff, S. D. Parker, D. Holden, T. Hanley, W. A. Shepard, J. N. Skolitz, James Harrold, E. Harrison, and the President of the National Society, with elegantly the names of six or seven members.

The Committee to have power to do as they saw fit.

Rev. Mr. Burton said Mr. C. V. Bogart urged immediate action, the latter gentleman stating that a great deal of distress had been under his notice.

Rev. Mr. Burton, it was suggested, that the Committee should meet at 3 o'clock p. m. on Thursday, in the Town Hall.

Mr. Harrold stated that twenty families, some of them with eight members, were depending on the work, and that the work was great distress. Contributions of clothing would be of great service.

THURSDAY, DECEMBER 16, 1875.

Town and Vicinity.

POLICE COURT.—There was no business in the Police Court to-day.

THE SCHOOLS.—The examinations of the Public Schools is going on from day to day, with, we believe, generally satisfactory results.

CONFIRMATION.—The Right Reverend Dr. O'Brien, R. C. Bishop of Kingston, held a confirmation at Lonsdale on the 14th. Eighty children were confirmed.

MUNICIPAL.—A meeting of the Mayor of Murray Ward is to be held in Mrs. Hayes' new building, Bridge Street, to-morrow night, for the purpose of selecting candidates for the Town Council for that Ward.

THE MARKET.—There was a large attendance on the market this morning, and prices were in a few instances exceptionally low. Peas sell at an advance of 20 on yesterday's rates, there being a demand for shipping purposes.

ANNIVERSARY.—To-morrow will be the one hundred and eighty-seventh anniversary of the closing of the gates of Derry against the besieging forces of James II. The anniversary is a memorable one, and will be celebrated by the Prentice Boys of this town in a becoming manner.

SOCIAL AND SALE.—A number of useful and ornamental articles will be offered for sale at the social, to be held in the School Room of the John St. Presbyterian Church on Friday evening next, at 7 o'clock. Music by the choir. Refreshments served during the evening.

THE MUNICIPAL ACT.—It is stated that previous to the adjournment of the Royal Assent will be given to the Premier's Bill for amending the Ballot system in Municipal elections. The amendment will deprive propertyholders of the power to vote for Mayor in every ward where they hold property limiting them to one vote, and it is said the amendment will come into force in the ensuing municipal election.

REMARKS.—An error occurred in Mr. E. H. Hoot's letter, which appeared in yesterday's issue. In the second paragraph, "sixteen dollars" should read "seventeen." In the third paragraph, instead of "evening of Monday," it should read "evening of Monday." The following paragraph was left out altogether: "In the spring of 1872 I again got the contract at twenty dollars a day, and on the settlement in the fall I was paid twenty dollars a day for the number of days the dredge worked and sixteen dollars a day when the dredge was disabled."

REMARKS.—Mr. R. B. Richardson, Manager of the Montreal Bank at this place, has returned to town, after an absence of four months in England and on the Continent of Europe, being understood much improved in health. Mr. Richardson has been in the bank of the same Institution, which has managed the business of the Bank here for some time. Mr. Richardson's absence will leave for Pictou, Mr. J. H. Brown, D. H. of Colborne, in the courteousness of his demeanor and the geniality of his disposition, make many friends.

ISLAND REVENUE.—Mr. Inspector Dickson is in town, and installed Mr. George C. Hooten into the office of Collector of Island Revenue to-day, an office to which he has been appointed by the present Government. Personally, we congratulate Mr. Hooten upon his appointment, and have no doubt he will fulfill the duties of his office honestly and well. At the same time we cannot but express the opinion that the appointment of any one over the heads of old and efficient officers is a gross wrong, likely to disgust faithful officers with the service, and render them less desirous of becoming proficient in their duties, knowing that political services are a greater recommendation than a thorough knowledge of the routine and practice of the offices in which they are employed.

News Condensed.

—The writs for Chambliss and Argenti, have been issued.

—Mr. Bellington is out as a candidate for the House of Commons for Argenteuil.

—John W. Johnston was yesterday nominated a United States Senator for Virginia.

—A colored lawyer, the first of his race, has been elected a member of the Common Council of Boston.

—700 men marched in procession to the Mayor's office, Montreal, on the 15th inst., demanding work, or bread.

—The Direct Cable Company has offered a reward of \$1,000 for the discovery of the vessel which broke the cable.

—According to the report of the Inspector of Asylums there were in the first of Oct. last less than 100 insane persons in Canada, and 56 females, in the Common Asylum of the Province.

—Rebels, the Bear River wife murderer, is being held this morning in the County Jail, ready to be granted Shadrach, sentenced to be hanged for the murder of Mr. Findlay, in Somalia.

—The Archbishop of Cologne left this city on Tuesday, and is not expected to return. It is understood that the German Government has a subordinate. The German Government has already taken measures to depose him.

Bellefleur Branch Bible Society.

The annual meeting of the Bellefleur Branch of the Upper Canada Bible Society, was held in the Metropolitan Hall last night. The weather being very unfavorable, there was but a small attendance.

The chair was occupied by Mr. Sawyer, President, and on the platform were Rev. Dr. O'Meara, of Port Hope, Rev. Mr. McLean, and of the local clergy, Rev. Dr. Jacques, John Burton, M. W. McLean, A. Campbell and J. Wickert, together with Dr. Hope and Messrs. F. McAnany and Thomas Ritchie, Secretaries.

Proceedings were begun with reading of the scriptures, prayer by Rev. Mr. McLean, and music by an excellent choir under the direction of Dr. Palmer, which subsequently contributed much to the enjoyment of the occasion.

The Chairman, then, in a few well chosen words, adverted to the position of the Bellefleur Branch, and spoke briefly of the new and vast field of operations opening up in Central Africa, which would be occupied by the British and Foreign Bible Society. He then had been made up, he had received \$12 additional collected by Mrs. McAnany and Miss Gault. In conclusion he called upon Mr. Thomas Ritchie, Secretary, to read the Report, which he did as follows:

The Thirty-fifth Annual Report of the Bellefleur Branch Bible Society.

Another year of the Society's history having closed, we are again in the good providence of God, enabled to present to you a report of the work done during the year.

Your Committee of Management, in presenting this report, feel that they have the privilege to thank you for the interest and sympathy which you have shown in the work of the Society.

The work of the Society during the year has been characterized by the fact that we have been able to secure a number of copies of the Bible for the people of the district.

British and Foreign Bible Society.

The Bible has been translated into upwards of three hundred tongues and dialects. Prior to expression through many of these languages and dialects were, there was not one which the Bible could not be translated. It is a fact that God never made a language which He did not intend to be fully translated. On the platform of the Bible Society all denominations could meet as members of the Catholic Church. That Society devoted their moral and material support to their prayers, and with their money, in order to carry on its work successfully.

Rev. A. Campbell, Deputy Secretary, the motion, which was adopted without dissent.

The third resolution, which reads as follows, was moved by Rev. M. W. McLean:

That the British and Foreign Bible Society, of which the Upper Canada Society is an integral part, should be the best means of fulfilling our duty as Christians, in the spread of God's Word, and that we should, in the most efficient manner, support this Society both by moral and material aid.

The Rev. gentleman spoke ably and fervently for some length, urging upon his hearers the importance of the work which they were called upon to do.

He then read the following resolution, which was adopted without dissent:

Execution of the Bear River Murderer.

Culprit Hopeless of Forgiveness.

HIS DEATH INSTANTANEOUS.

HALIFAX, N. S., Dec. 16.

David Robins, convicted of the murder of his wife at Bear River, was executed at Digby at 4 a. m. to-day.

A large number of people, of about one hundred spectators, who had been admitted to the enclosure. A crowd of five or six hundred people were outside, who behaved in an orderly manner.

At last night's meeting and praying to be saved. He seemed to be penitent, but hopeless of forgiveness. Several clergymen were with him to the last moment.

On the scaffold, in answer to the Sheriff, Robins stated he had nothing to say. His death seemed instantly with the drop.

Winter Prospects.—Some Seasonable Hints.

(From the Monetary Times.)

Winter has now fairly set in, and there is good sleighing in most parts of Ontario. The months of December and January are among the most active business months of the year, more particularly in the newer sections of the Province, where they depend upon good sleighing to enable them to get their crops quickly and cheaply to market. In all sections good winter roads enliven business. For this season, the predictions of the weather prophets, that there will be very little snow before the New Year, do not seem likely.

The weather is, however, particularly fickle, and there may be a great deal of Christmas after all.

Prospects of business for the coming season are good. The present position is peculiar, and this must necessitate some special months to come. The agricultural interest is undoubtedly sound and prosperous. The late harvest was abundant, and the sections the crops are only a few commercial crops, but the weather is very many of the other districts, where the crops are good in the fall, farmers have very generally held back the sale of the whole or part of their produce in hopes of a rise in price. The high as is frequently the case, but what, barely warranted, wheat, corn, and eggs, command fair, paying prices, considering the extent of the harvest. This we think there can be little doubt, in the next two months, if we have good sleighing, will be a large sale of produce in every part of the Province, and will result in a corresponding amount of money. This

natural and civilised business in every place which has a market, and must be felt more and more every class of the community.

Next month, the fair, however, we do not expect much revival of the trade in the country. A good many farmers will be able to settle up old scores—in many instances too long over-due—and never mind the fact that the market is so tight that all old arrearages shall be squashed. But we do not expect that such persons will buy again freely. The public is at present not in a buying mood; contraction is the order of the day. The feeling has extended to classes who can afford to buy more if they are willing to do so. But they are influenced by the same feeling as the others. They are not in cases if not in their hands, and they button their pockets and refuse to purchase. must be confessed, too, that in most cases they are already well supplied with articles of every kind, and that the year 1874 and over-production from 1871 to 1874, most classes purchased freely, and

The condition of business is also adversely affected by the continued decline in manufacturing and the lumber trade. The only real source of supplies sent into our forests this winter are much smaller than they were to be, and the only real work being done is by the few small manufacturing factories operating much fewer hands than on short time. In cities, towns, and villages where industry is the main support of the population, persons out of employment, whilst few have work are not able to purchase as freely as in former years. The result is that sales have to be set over against the goods which will arise from the marketing of our harvest during the winter months. It is clear that the demand we think it will clearly appear that the money we call mercantile interest, and more particularly the money we call the interest of the bank, may mark a revival of business for some

During the winter, however, we anticipated much progress towards a sounder and more businesslike system. The country is now passing through a process of reorganization. This process will be hastened, as crops are turned into cash. Old stocks, which have too long lain upon the shelves, are being sold. Open, old notes will be collected, and book debts wiped out which might lingered for years if they had not been paid. We have no doubt, that a personal exchange of views will be the result of this, and that, in short, before Spring is round many of the difficulties which have arisen from past overtrading will have been greatly lessened, and the country will be in a position to start on an over-bright one for business, but is full of hope for the not distant future, for experience proves that the hull and general squaring up of the period of depression, and the commercial panic, such as Canada lately enjoyed,

It is to be hoped that we may have at ten weeks of good sleighing, for after the busy season, will come the payments of January accounts, and never was it more necessary that money should be sufficiently plentiful to assure their prompt payment. The crops being generally been so good few farmers have good excuses for not settling up, and certainly merchants and others who have many liabilities will act with great folly if

do not this season insist on old scores but entirely wiped out. In addition to this, I never had a more splendid opportunity to adopt the cash system, or to at least restrict credits to small limits and short dates. In fact, very many retailers are not in a position at present to give long, risky credits as at one period did, and the present hard time will certainly not prove an unmixed evil; they lead to the general adoption of the cash or short credit system of transacting business.

TOO OVERCOSTLY.—All shades and styles, and a long retail at half price at Wm. C. Commercial House.

MASSAGE.—Moira Lodge No. 11, G. R. C. M., will hold its regular meeting on Monday evening next.

WORKS OF PRAYER.—A plan of the appointments for the week of prayer—the first week in January—will be found in our advertising columns.

GRAND CHRISTMAS SALE OF Winter Dry Goods.—Furs and clothing now going on at Wm. C. Commercial House. Don't fail to call.

ACKNOWLEDGMENT.—Mr. Farley requests to acknowledge, on behalf of the Committee for the relief of the poor, a donation of tea and sugar from Mrs. Geo. Neilson, and 100 lbs. of flour from Mrs. Patton, also a quarter of beef from Mrs. James Ross.

FROST.—The temperature fell during the night, and there was a considerable degree of frost, which, however, came too late to save the snow. That dread of the people who believe in old sayings, "frost brings snow," seems not unlikely to happen this year.

GO TO WALSH'S Commercial House for Blankets, Flannels, Winceys, Cloths, Shawls, Furs and Woolen goods of all descriptions, all are being sold off at unheard of low prices.

A NEW DRESS.—Our lively contemporary the *Chicago Palladium* appears in a new dress and with a new and pretty loading. The *Pall.* is one of the assistants of our exchanges, and now looks as new and bright as a button—a paper ought to do.

HO LARK BROTHER.—It will be seen by advertisement that the North Hastings Railway Company require timber for the building of their bridge over Hog Lake. Tenders are to be addressed to Chas. B. Daly, Civil Engineer, Maple, up to January 1st.

BARGAINS are being obtained at the Great Christmas Sale of Winter Dry Goods, Furs and Clothing now going on at Wm. C. Commercial House.

REDEMPTION OF SLAVERY.—The Chicago Inter-Ocean thinks the names of crews ought to be registered at the Custom House. This idea is good one and some action ought to be taken by the U. S. Congress and the Dominion Parliament in that direction.

RESULT OF SELLING good goods at Low Prices. The great rush of customers to Walsh's Commercial House, Front Street, Belleville, is proof of the unusual good value offered to the public.

FLORAL GUIDE.—The first issue of Vick's Floral Guide for 1876 has been received. It is a useful got up in the matter, style of the typographical art, and contains, in addition to much valuable reading material, numerous illustrations, a beautiful chromo. See advertisement for terms, &c.

THANKS.—The officers and members of Moira Lodge, Independent Hose and Quinze Hose and Ladder Company desire to thank the Board of Directors of the St. Lawrence Insurance Company, who have, through their local agent, Mr. N. J. Yoncas, donated the sum of \$10 to the funds of each Company.

TOWN COUNCIL.—A regular meeting of Council will be held on Monday night. Parties having accounts against the Corporation are requested to present their bills to the Clerk, properly certified, in order that they may be read and referred to the Finance Committee for examination. Such accounts as are not presented will have to be over for the new Council to deal with.

THE MARKET.—There was a good attendance on the market this morning, but nothing to what it would have been had there been good sleighing. Prices of poultry took a very wide range, averaging a little below those of yesterday. Hens were in great demand, and sold at from \$5 to \$5.50 per 100 lbs. Sheepskins brought from \$25 to \$30; the latter for very choice.

YESTERDAY, on visiting the Commercial House, were astonished to see the immense number of persons buying Dry Goods, Clothing and Furs, but not counting the prices they are retelling the goods for, our wonder ceased.

THE NOMINATIONS.—On Monday next, at 10 o'clock a. m., the nomination of candidates for the Mayoralty will take place at the Town Hall. So far no position has been offered to any one in the election of Mayor, but it is expected that the Mayor will be returned by acclamation. The nominations for the Wards will take place at

CENTENNIAL CELEBRATION IN CINCINNATI.

DECLINE OF "GRANGERISM" AT THE WEST.

CHICAGO, Dec. 24.—Though there has been

some decline in the night rates, the reduction in the east, there is a gradual slackening, and it is deemed probable, that in a few days the combination will be broken up. The Grand Trunk Railway yesterday, made several contracts for seats at 85 cents through to Liverpool, while the combination rate is 97 cents. It is also estimated that they were to have had less than combination rates on route to New England, as it is known they have made some large contracts within a day or two in that direction. The feeling among merchants towards the combination for discriminating against Chicago is very bitter.

PROSECUTION. Dec. 24.—A mass meeting of the members of the Roman Catholic Parish of St. Mary's, Newport, was held yesterday to give expression to the opinion relative to the recent burial scandal. A representative of the New York Herald was called to account for his report; and a series of resolutions were adopted referring to the affair as a case of discipline between Father and Parishioner, which has been misrepresented, expressing confidence in the Pastor, and replying to the calumny which charges him with priestly intolerance.

CHICAGO, Dec. 24.—A large meeting of citizens was held last night, and initiatory steps taken for a grand celebration of the centennial year on New Year's eve, at midnight. It is proposed to celebrate the event by illuminations, ringing of all the bells in the city, firing of cannon, and a grand military and civic procession through the principal streets.

NEW YORK, Dec. 24.—Washington despatches say that information has been filed here that the Spanish Government has violated the neutrality law by causing through its agents Italian recruits to be shipped to Cuba. A similar violation of the neutrality laws by British agents during the administration of President Pierce, induced this Government to send Sir John Crofton, British Minister here, to lay the king of a first-class yacht to be taken to the Centennial at Philadelphia next year. She will be built after the model of the *Amie Oulther* with such improvements as experience may suggest. The following will be her dimensions: length of keel, 95 feet; over all, 120 feet; breadth of beam, 24 feet; depth of hold, 14 feet; draught of water, 12 feet; tonnage, 1,000 tons; speed, 14 knots; and will cost about \$150,000. Mr. Oulther expects to have her completed by the opening of navigation. It is intended to take her first trip to Philadelphia and afterwards to New York, where she will take part in the great international regatta. The *Star* suggests that the Dominion should assist the builder with a grant of \$50,000, or that private individuals should contribute towards the cost of the vessel. We agree with the suggestion of our contemporary, though in this town one of the chief politicians is an Ontario man, Oulther, owing to circumstances too well known to need repetition, has nothing to hope for. We wish him every success in his patriotic enterprise.

FALSE PRETENSES.

H. P. Richmond was charged with obtaining money from S. S. McMillen under false pretenses. He pleaded "guilty," and elected to be tried summarily. He was remanded to be forth-coming, he was remanded until Thursday next.

To the Editor of the Intelligencer.

Sir,—My intention is to pass two or three months of our winter in a warm climate. This can be accomplished by parties indebted to me, paying promptly for my professional services. Will you break this party to all concerns, as I wish to make another effort to improve my health, as well as to save my pockets the trouble of collecting my accounts.

CHICAGO, Dec. 24.—Though there has been some decline in the night rates, the reduction in the east, there is a gradual slackening, and it is deemed probable, that in a few days the combination will be broken up. The Grand Trunk Railway yesterday, made several contracts for seats at 85 cents through to Liverpool, while the combination rate is 97 cents. It is also estimated that they were to have had less than combination rates on route to New England, as it is known they have made some large contracts within a day or two in that direction. The feeling among merchants towards the combination for discriminating against Chicago is very bitter.

PROSECUTION. Dec. 24.—A mass meeting of the members of the Roman Catholic Parish of St. Mary's, Newport, was held yesterday to give expression to the opinion relative to the recent burial scandal. A representative of the New York Herald was called to account for his report; and a series of resolutions were adopted referring to the affair as a case of discipline between Father and Parishioner, which has been misrepresented, expressing confidence in the Pastor, and replying to the calumny which charges him with priestly intolerance.

DR. **WILLIAM GRAY'S** **SPECIFIC MEDICINE**

Before Taking After Taking

Cures all NERVOUS DISEASES, as TREMORS, DEBILITY, PROSTRATION, etc., which, in many cases are produced by indulgence in tobacco and alcoholic spirit.

The Specific Medicine is more especially

WEAKNESS, SPERMATORRHEA, IMPOTENCY and all diseases that follow as a consequence of a Weak Atonic or Loss of Manly Vigor, are lost by the use of the Specific Medicine of Vision. Premature old Age, and many Diseases that lead to Insanity or Consumption, are cured by the use of this medicine, which is caused by deviating from the path of life and over-laboring.

The Specific Medicine is the result of twenty years' experience in treating these special diseases. Full particulars in pamphlet, which we desire to send free to all who apply.

The Specific Medicine is sold by all Druggists at 21 per package, or six packages for \$5.00. Send free by mail on receipt of the money.

THE BOSTON GAS EXPLOSION.

Intervention in Cuban Affairs
Alphonse Wants Queen Isabella Back

TROUBLE APPREHENDED.

SCHOOL DIFFICULTIES.

Boston, Dec. 29.—Crosby's building at Brookfield, Mass., occupied by Hall & Adams, book and shoe manufacturers, was burned last night. Loss on the building \$100,000; loss on stock not estimated. The cause of the fire was a gas explosion, which has been conducted by experts under the direction of the Coroner's jury, and has discovered the fact that the drop cock of the gas main had been left open through carelessness of an employee of the South Boston Gas Company, causing the rapid accumulation of gas which led to the explosion.

New York, Dec. 29.—A Vienna despatch to the Herald says the Secretary of State of the U. S. has transmitted to every European Government a circular dated Washington, Dec. 28, expressing views of each foreign executive regarding the question of American intervention in Cuba. The object of the circular is to be used in preparation of President Grant's supplementary message to Congress. All the foreign Governments have replied satisfactorily. England is ready to endorse the interventionist movement at the present moment, other nations express their willingness to support intervention but hesitate to take the initiative.

A Madrid despatch says Alfonso is arranging to leave for Rome, Italy, the Royal Commissioner, refused to honor Valmades's demand for \$800,000, unless proper vouchers were forthcoming. Senator Rabi has also incurred the wrath of the Spanish Admiral at Cadiz, by demanding vouchers from the Naval Bureau for his expenditures. The same letter details the destruction of sugar estates, and capture of Spanish stores, and mentions also under Valmades's name, of which telegraphic mention is already made.

New York, Dec. 29.—Arrived, the steamship *Orizaba* from China, Egypt, from Liverpool, and the State of Nevada from Antwerp.

Father Hennessy, of St. Patrick's, in charge of one of the largest Catholic Parochial Schools in Jersey City, having 600 pupils, has formally offered to turn over his school to the control of the Public School Board, with use of building, fuel and rent free, providing that the present teachers be retained at salaries averaging fifty per cent less than those paid Public School teachers, offering himself to serve as Principal gratis, and to do so, he agrees that his teachers shall submit to the examination prescribed by the school laws, but his proposition reserves in the hands of the Church authorities the right to name all teachers to fill vacant places of the school. Otherwise, the school Board will have full control. The Priest also offers to furnish text books gratis, if his own selections are adopted. The matter was referred to a Committee of five.

SHOOTING.—There has of late been good rabbit and partridge shooting, and the fishermen of the bay have not been altogether without luck, as they have been shipping a good many barrels of fish to distant markets. A considerable number of men are engaged in the bay fishing, their little shanties dotted the ice thickly at all the favorite haunts of the fish.

Boston, Dec. 29.—Crosby's building at Brookfield, Mass., occupied by Hall & Adams, book and shoe manufacturers, was burned last night. Loss on the building \$100,000; loss on stock not estimated. The cause of the fire was a gas explosion, which has been conducted by experts under the direction of the Coroner's jury, and has discovered the fact that the drop cock of the gas main had been left open through carelessness of an employee of the South Boston Gas Company, causing the rapid accumulation of gas which led to the explosion.

New York, Dec. 29.—A Vienna despatch to the Herald says the Secretary of State of the U. S. has transmitted to every European Government a circular dated Washington, Dec. 28, expressing views of each foreign executive regarding the question of American intervention in Cuba. The object of the circular is to be used in preparation of President Grant's supplementary message to Congress. All the foreign Governments have replied satisfactorily. England is ready to endorse the interventionist movement at the present moment, other nations express their willingness to support intervention but hesitate to take the initiative.

A Madrid despatch says Alfonso is arranging to leave for Rome, Italy, the Royal Commissioner, refused to honor Valmades's demand for \$800,000, unless proper vouchers were forthcoming. Senator Rabi has also incurred the wrath of the Spanish Admiral at Cadiz, by demanding vouchers from the Naval Bureau for his expenditures. The same letter details the destruction of sugar estates, and capture of Spanish stores, and mentions also under Valmades's name, of which telegraphic mention is already made.

New York, Dec. 29.—Arrived, the steamship *Orizaba* from China, Egypt, from Liverpool, and the State of Nevada from Antwerp.

Father Hennessy, of St. Patrick's, in charge of one of the largest Catholic Parochial Schools in Jersey City, having 600 pupils, has formally offered to turn over his school to the control of the Public School Board, with use of building, fuel and rent free, providing that the present teachers be retained at salaries averaging fifty per cent less than those paid Public School teachers, offering himself to serve as Principal gratis, and to do so, he agrees that his teachers shall submit to the examination prescribed by the school laws, but his proposition reserves in the hands of the Church authorities the right to name all teachers to fill vacant places of the school. Otherwise, the school Board will have full control. The Priest also offers to furnish text books gratis, if his own selections are adopted. The matter was referred to a Committee of five.

THE BELLEVILLE AND NORTH HASTINGS RAILWAY COMPANY advertise for tenders for 50,000 ties. Particulars will be found in the advertisement.

REMOVED.—Mr. F. M. Clarke (sign of the golden boot) has removed to the store on Bridge Street, three doors east of Front Street, formerly occupied by Mr. Geo. Gibson.

1-60 OVERLAYS. all shades and styles, are on hand at half price at Walsch's Commercial House. 196-17.

CONFIDENTIAL.—A Toronto report says: There is a great deal of false money floating about the city. An admirably forged \$20 bill was passed off in trade yesterday. There are also many false 50 cent pieces in circulation.

DECEASED.—Business men are complaining, and with reason, of the dullness of the times. Since the departure of the snow, trade has slackened greatly, and it is to be hoped that an early snow fall will put the trade in good condition again and give the new year a brisk start.
